

Central East Prehospital Care Program

MEMORANDUM

To: All Paramedics
From: CEPCP
RE: Spring 2011 CME
Date: February 7th, 2011

During the upcoming Spring 2011 CME our plan is to arrange the day's schedule in a similar format as previous CMEs, with short didactic sessions followed by station rotations. The following topics are to be covered during this CME:

Trauma Review (General and Chest Trauma)
CPR Guideline Updates (2010)
CEPCP Policies & Procedures
MOH Deceased Patient Standard
Hands on scenarios
Medical Directive Quiz

Please take a few minutes prior to your CME to review the new CEPCP Policies & Procedures (available for review on our website) as well as the new MOH Deceased Patient Care Standards.

Please be sure to bring a pen / pencil and your stethoscope to CME for use during scenarios.

If you have any questions, please do not hesitate to contact CEPCP at 1-866-423-8820 or 905-433-4370.
